EDUCATION

Kamaraj College of Engineering and Technology

Bachelor of Engineering in Computer Science | CGPA: 8.45 — Virudhunagar, Tamil Nadu

Sep 2023 – Apr 2027

Tagore Vidyalayam Matriculation Higher Secondary School

Higher Secondary Certificate (HSC) | 94% — Vandiyur, Tamil Nadu

Jun 2022 – Mar 2023

EXPERIENCE

MERN Stack Developer Intern, Phoenix Softech

June 2024

- Built and optimized RESTful APIs using Node.js and Express.js, improving response performance through efficient middleware and query design.
- Designed well-structured, indexed MongoDB schemas and reusable React.js hook-based components to improve data access speed and UI responsiveness.
- Introduced structured Git branching workflows and thorough API testing with Postman, improving code reliability and reducing integration issues before deployment.

Mobile Application Developer Intern – Flutter, Dot Com Infoway (DCI)

December 2023

- Built reusable cross-platform Flutter components in Dart, streamlining development for iOS and Android from a single codebase.
- Identified and resolved key UI and performance issues ahead of release, improving app stability and overall user experience.
- Improved navigation flow and app startup performance through lazy loading and efficient state management.

PROJECTS

RAG Projects | rag-1-5b3e.onrender.com

June 2026

- Built a suite of local RAG applications — including a PDF Q&A Bot, Knowledge Base Chatbot, AI Resume Screener, College FAQ Bot, and GitHub Codebase Chatbot — using LangChain, ChromaDB, and Ollama for local, cost-free inference.
- Implemented vector embeddings, semantic search, and conversational memory, with interactive interfaces built using Streamlit and FastAPI.

CV-Genix | github.com/Kumaran69/CV-Genix

December 2025

- Developed a full-stack resume builder with secure JWT-based authentication, helping users create polished resumes quickly.
- Designed and deployed RESTful APIs on AWS EC2 with MongoDB Atlas, containerized using Docker for a reliable, multiservice architecture.
- Set up a CI/CD pipeline with GitHub Actions to automatically build and deploy Docker images, streamlining the release process.

Student Performance Measurement System | vyvjsun4mryvxmpupf8pam.streamlit.app

December 2024

- Built a regression and ensemble learning model, combining Gradient Boosting and Random Forest, to accurately predict student academic performance.
- Created visual dashboards using Matplotlib to help educators quickly identify at-risk students and take timely action.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL, HTML/CSS, Dart

Frameworks & Libraries: React.js, Node.js, Express.js, React Native, Flutter, Scikit-learn, Pandas, NumPy

AI & RAG: LangChain, ChromaDB, Ollama, Streamlit, Vector Databases, LLM Integration

Databases: MySQL, MongoDB Atlas

DevOps & Cloud: Docker, Docker Compose, Nginx, GitHub Actions (CI/CD), AWS EC2, S3, IAM, EBS, RDS

Developer Tools: VS Code, Git, GitHub, Postman, Docker Hub

CERTIFICATIONS

AWS Cloud Practitioner – iSysway Technologies

December 2025

- Gained foundational knowledge of AWS Cloud concepts, core services, security, pricing models, and architectural best practices.
- Worked hands-on with AWS services including EC2, S3, IAM, EBS, and RDS through guided labs and training.

LEADERSHIP / EXTRACURRICULAR

Youth Red Cross (YRC) Club – Active Member

Oct 2023 – Oct 2024

Kamaraj College of Engineering and Technology

- Helped organise campus-level and inter-college YRC events, coordinating volunteers and demonstrating strong teamwork.
- Developed strong communication skills through active interaction with volunteers, faculty, and participants.
